

Dockets Management Branch (HFA-305)
Docket No. 98N-1265 2 '99 MAY 14 P2:25
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: My internist ordered a bone density test for me
a year ago. Result: advanced osteoporosis. He recommended
estrogen. I am a pharmacist myself and my drug of choice
there is natural estrogen. I also trust the Madison
Pharmacy's compounding of a combination of estrogen and
progesterone, as specifically ordered by my doctor.

Also, I have a slight heart condition, and also do
not wish to put myself at risk for breast cancer, by
taking Premarin. This Rx I am now taking gives
me a sense of well-being, and I would hate to
lose it.

Therefore, please do NOT adopt this new
restricted M.O.U. ruling.
